

How to add a product image

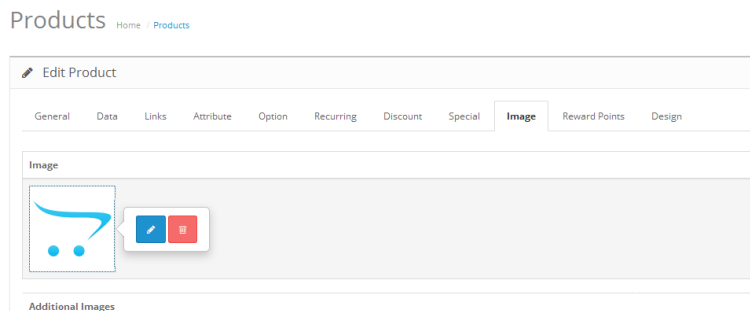

In the admin go to Catalog >> Products

Click the edit button on the right to go to the edit product page

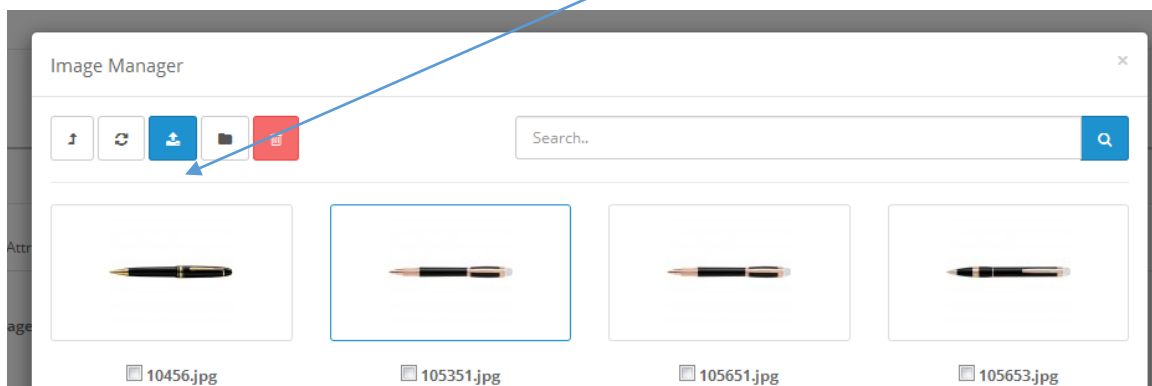

Click the image tab, then click on the default Opencart image and then click the blue edit button to add an image.

***** PLEASE NOTE: Try to keep your image files below 500KB each or 1000px in width/height as very large images can cause problems with the image manager *****

After clicking the edit button, a popup box will appear to select a new image. Here you can also upload pictures of your own by clicking the blue upload button

Don't forget to save your changes.
